

Coatape®

Coatape® Bond
Universal solution,
strong performance

Key Advantages

- + Sustainable base film available
- + Produced without the use of harmful or hazardous substances
- + PPWR: Free of PFAS
- + Circular version available
- ⊕ Exceptionally strong adhesion to your adhesive
- ⊕ Reliable bonding on various substrates – e.g.:
 - Polyester 12 – 250 µm
 - Polypropylene 20 – 260 µm
 - Polyethylene 40 – 120 µm
- ⊕ Serves as a barrier to migrating components of adhesives (e. g. oils)
- ⊕ Approved for direct food contact

Characteristics

- + Proven solutions up to 2,200 mm
- + Also suitable for use in resealable packaging
- + Compatible with additional coatings such as metallization and colored coatings and printing
- + Free from PFAS and heavy metals, low VOC
- + Equal performance, even on recycled base films
- + Two-sided application of additional coating possible, compatible with e.g. Coatape® Bond / FR Metallization, colored coatings and printings
- + Low coating weight for minimal impact on final product construction
