

PAXAFE® SPLIT

TAMPER EVIDENT PAPER FACESTOCK

PAXAFE® split is a facestock material for security labels based on paper, instead of film. Trying to remove the label, the hidden message appears and leaves a non-sticky footprint on the substrate.

Key benefit is that these security seals make it possible to recycle cardboard and paper packaging by type.

CHARACTERISTICS:

- Base material: 90 gsm FSC® paper
- Full area transferrable security pattern
- Additional feature: dry peel coating

KEY ADVANTAGES:

- Improved recycling process due to paper basis of security label
- PAXAFE® based labels are produced on FSC® certified paper

For detailed information and samples of PAXAFE® split, please get in touch with the HUECK FOLIEN team.
