

SILSKIN®

PRINTABLE BRIGHT SILVER PE

SILSKIN® is a direct metallised silver printable facestock film based on blown or cast PE. The special construction of SILSKIN® provides an excellent metallic background and high-gloss mirror effect for decorative labels. SILSKIN® is specifically designed for flexible objects and squeezable packaging.

The perfect printability of the product is combined with a low gel level.

CHARACTERISTICS:

- Directly metallized silver printable facestock film
- Super low gel-level
- Direct food contact grades available
- Top performing printable topcoats
- High gloss surface finish (up to 60 GU)
- Available on PE 85 µm (3.35 mil) standard, other thicknesses on request
- Available also with recycled base film
- Maximum width: 2.200 mm (86.61 ")

KEY ADVANTAGES:

- Improved performance compared to transfer-metallised PE
- Preferred label facestock on squeezable containers or flexible packaging
- A range of printable topcoats is available for this product
- Applications for home and personal care, where high quality labels are required
