

# Silskin®

## Printable bright silver PE

---

### Characteristics

- + Directly metallized silver printable facestock film
- + Super low gel-level
- + Direct food contact grades available
- + Top performing printable topcoats
- + High gloss surface finish (up to 60 GU)
- + Available on PE 85 µm (3.35 mil) standard, other thicknesses on request
- + Available also with recycled base film
- + Maximum width: 2.200 mm (86.61")

---

### Key Advantages

- + Improved performance compared to transfer-metallised PE
- + Preferred label facestock on squeezable containers or flexible packaging
- + A range of printable topcoats is available for this product
- + Applications for home and personal care, where high quality labels are required

---
