

## BICHROME FLUO VOID FLUORESCENT TAMPER EVIDENT FILM

The bichrome is a two-coloured fluorescent VOID facestock. This transparent tamper evident film with one visible and one hidden UV fluorescence provides enhanced security for labels. Once the film is tampered with, a message in the hidden fluorescent layer appears. The VOID pattern can be customized on request.

### CHARACTERISTICS:

- Transparent tamper evident film
- One visible and one hidden UV fluorescence
- Different UV fluorescence colours, machine-readable taggants possible
- Available on PET 50 µm (1.97 mil) or PP 50 µm (1.97 mil) with topcoats for different printing methods
- Maximum width: 1,600 mm (63 ")

## KEY ADVANTAGES:

- Once the film is tampered with, a message in the hidden fluorescent layer appears.
- Both, the visible and the hidden UV fluorescence provide enhanced security for labels.
- The VOID pattern can be customized on request.
