

SILVER HOLOGRAPHIC VOID

The holographic dry peel VOID is a silver holographic security label facestock film with invisible tamper evident pattern. The combination of hologram and VOID features provides overt and covert security in one product. Both designs are available as generic patterns, a customization of both features is possible on request. The built-in dry peel effect is designed to work even on delicate substrates such as paper or cardboard.

CHARACTERISTICS:

- Base materials / thicknesses: PET 12 - 36 μm (0.47 – 1.42 mil)
- Maximum width: 810 mm (31.89")
- Design options: VOID text, checkerboard, micro text, generic hologram designs available, custom patterns and designs on request
- Surface finish: high-gloss, glossy
- Topcoat printability: flexo, screen, offset with UV- and solvent-based inks, thermal transfer, HP indigo, UV-inkjet

KEY ADVANTAGES:

- Once the film is tampered with, a message appears.
- The combination of hologram and VOID features provides overt and covert security in one product.
- The designs for the hologram and the VOID feature are available as generic patterns, a customization of both features is possible on request.
- The built-in dry-peel effect is designed to work even on delicate substrates such as paper or cardboard.
